

Saint Peter's University Hospital Physician Shadowing Program:

The Health Professions Office is proud to announce a new Premedical Physician Shadowing Program at Saint Peter's University Hospital in New Brunswick. This program is open to rising juniors who have a minimum GPA of 3.6. Candidates must have satisfactorily completed General Biology, General Chemistry and Organic Chemistry along with having a file with the Health Professions Office with at least two letters.

It is a wonderful opportunity that will give participants a unique opportunity to observe the practice of medicine. Participants will be paired with a physician mentor and will be given an opportunity to observe the physician on rounds, in the office, watching certain procedures, attending departmental weekly Grand Rounds and participating in the medical student/resident conferences daily.

More Information is available in the HPO.

If, at the present time, you are missing one or two of the requirements for the shadowing program, [do not submit an application until you have satisfied them.](#)
